

Have We Got a Job for You!

Caring for Our Most Valuable Resources

What's Happening?

To save funds for education, we are initiating a comprehensive energy conservation program that will bring great financial and environmental benefits to the New Castle Community School Corporation

To implement this important program, we are hiring an **Energy Education Specialist** — a coordinator who will be trained by our partner, Energy Education.

Here are some important things to know:

- **It is self-funding** – no new budgeted funds are required to pay for this position or program
- It is year-around
- It is a salaried full-time position
- It is visible – we anticipate regular board presentations and public communications
- It improves comfort and saves money
- It requires no prior technical or mechanical knowledge...just a willingness to learn

Qualifications

- 3+ years of experience at the New Castle Community School Corporation
- Good judgment
- Excellent time management skills – a self-starter
- Enthusiastic about working with others
- Above-average computer skills
- A passion for conservation and learning
- Work is performed in an office (20%) and on our campuses (80%)
- Commitment to work irregular hours (nights, weekends and holidays)
- Want to make a difference!
