

Students who move in from other districts

Families who move into New Castle Community Schools with high ability testing from the sending district can submit this testing evidence for review by the identification team. If the evidence is sufficient, the identification will be confirmed and services will be provided. If the evidence for placement is insufficient, the student will participate in identification screenings to determine eligibility. It is important to note that the determination of high ability placement in Indiana is based on local norms. Eligibility in one school corporation is not necessarily the same as the next.

Process to appeal decisions

Parents who wish to appeal the decision of the identification committee may submit an appeals form to be reviewed by the identification committee.
